

## TECHNICAL DOCUMENT

For Festivals, Theatres & Venues

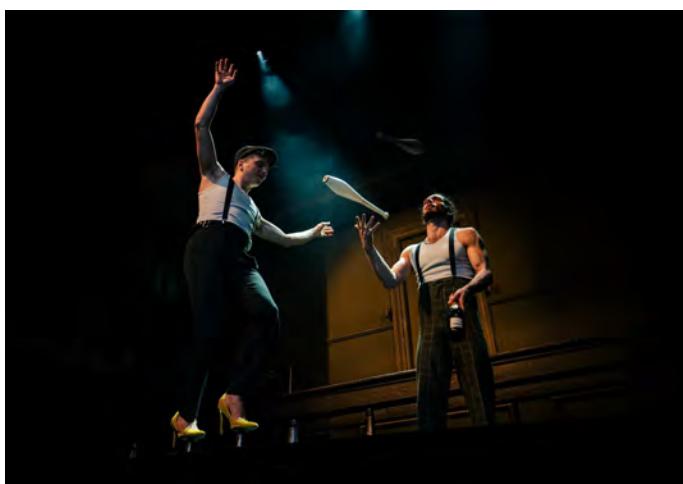

'The Venue' is the Theatre, Festival, Venue. 'The Company' is BrainFools

### Loading in/out and parking:

- Warm up space / changing area for two performers (if available)
- Venue access: Minimum 1 hour before the audience enters the performance space.
- Get out: 15 minutes
- Company arrives with large car or small van

### Stage / Performance area:

- Any flat surface (grass, asphalt, outdoors, indoors...)
- Minimum clear stage area of 5 metres wide x 5 metres deep
- Minimum ceiling height above stage: 4.5 metres.
- The company provides props necessary for shows. (e.g. Juggling clubs, Champagne bottles)
- Two empty EU standard 50L beer kegs (e.g. [here](#)), and one 4 in x 4 in x 5 ft plank of wood will be used as a set. These will be sourced locally if possible.

**Company size:**

2 Performers & 1 Stagemanager

**Lighting/Sound:**

If LX is required:

The Venue provides 1 technician to be present for tech rehearsals and show/s.

Lights (outdoor)

- For outdoor daytime performances no lighting required
- For evening or tent performances a festival rig is sufficient (provided by venue)

**Sound:**

- Company brings own PA system (battery powered)
- If Venue provides a PA system we require a normal Headphone jack
- Company will bring a device with music files on it (qlab)

**Backstage facilities (indoors):**

- Warm up space (ideally with mirror, AC / heating)
- Secure overnight storage is welcome for overnight stays for kegs and props (but not required as they can also stay in Van/Car)

**Backstage facilities (indoors):**

- Company will bring a gazebo to be able to comfortably change (please let us know if there is one already on site)

**Performing duration**

- The outdoor show version is 30-45 minutes depending on the needs of the festival/venue
- The Indoor show version is 45-60 minutes long
- The company can offer up to 2 performances / day comfortably. A third one can be added if necessary (usually requires a separate get in or get out day)
